Keep
The Money
At Home....

If you were going to deposit one hundred dollars a year for 10, 15 or 20 years during your productive period to provide for yourself in your old age, you would not send it to a New York bank if there was just as good a bank at home, would you? Why then should you send your insurance premiums there when you can buy the same policies here for less money? We are an insurance company of the people for the people. Do you know that about \$2,000,000 annually leaves these Territories in life insurance premiums alone, and that not a dollar of this amount is invested in either Territory? Suppose we had \$2,000,000 to loan today to the Farmers, Stockmen, Merchants and other representative interests of the Territories at a reasonable rate of interest, would it not only promote the individual, but the community interests of our people as well? We have now \$110,000 that is available to the people as loans on improved real estate, subject to the approval of the executive committee. The amount will be increased annually as our business grows.

A Few Things

WE DO:

Sell you life insurance at the lowest rate possible and consistent with absolute safety.

Operate our affairs with the most careful economy and pay large dividends.

Write standard old line policies on a legal reserve basis with all of the most modern and liberal features.

Loan you money, not only on your policy, but on other securities as well.

DISCRIMINATING LADIES.

Major Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleaning the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allows that itching which dandruff will cause, dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness. In killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 5c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and \$1.00.

ARE AFTER YAQUIS

Mexican Troops
Pursuing the
Indians

WAR OF ANNIHILATION

Little of the Fighting Is
Known but Troops Are
Kept In Pursuit

Since the recent outbreak of the small band of Yaquis, who killed by the wholesale just across the international boundary, there has been very little account of them appearing in the papers, either on this side or the Mexican side of the line.

The government of Sonora, however, is not allowing the matter to lag but has been going steadily ahead with the formation of the flying squadron under Governor General Torres, which was ordered recruited by the central government at the City of Mexico.

Parts of this squadron are now in the field, most of them in the mountains down in lower Sonora. Thus far no accounts of any battles between them and the rebellious Indians have been received at the Mexican offices, but the guards are known to be in hot pursuit of the bands. They are under the command of an experienced Indian fighter.

Following the Flag

When our soldiers went to Cuba and the Philippines, health was the one important consideration. William T. Morgan, retired Commissary Sergeant U.S.A., of Rural Route 1, Concord N.H., says: "I was two years in Cuba and two years in the Philippines, and being subject to colds, I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughs, colds, bronchial troubles and all lung diseases. Guaranteed by all druggists. Price 50c and \$1.00. Trial bottles free."

A FAREWELL PARTY

Mrs. Rucker of El Paso Entertained by Her Tombstone Friends

Last night at their residence, Mr. and Mrs. Judge Duncan entertained in honor of Mrs. Rucker, who leaves today for El Paso, after an enjoyable visit to her Uncle, Judge Duncan, and wife, and making a host of happy acquaintances in Tombstone, added to those she already knew.

The happy programme included a "take-off" on "demerit" school work, in which several of the party brought tears of laughter to the eyes of the assembled friends.

Mrs. Rucker, especially, recited to the delight of the whole assemblage. Refreshments were served, but not all of them, as in the flurry and enthusiasm of the moment, the hostess forgot one big basket of choice sandwiches. The Judge says the madam was holding them out for a hard winter, but the lady strenuously denies it.

The party adjourned tired and happy. Those present included, besides the home folks, Mr. and Mrs. Philo Wilcox, George B. Wilcox and family, Rev. Benedict and daughter Helen, Mrs. Vandyne, niece of Rev. Benedict, Prof. McLaurin, Francis Crabbe, W. K. Meade, Miss Locke, Mrs. Jas. McPherson, Miss Josephine McPherson and Mr. Ray Swain.

The Red Men's smoker last night was hugely enjoyed by every one present. Deputy Great Inebriate Leon Godchaux led in the speech making, and the conviviality of the occasion so mellowed the members that nearly every one responded with at least a few happy remarks.

Col. H. L. Pickett returned yesterday from an extended trip, including the National Democratic convention, then swinging around to Los Angeles took in the Hassayampa club, where in a happy speech, he properly pronounced Tombstone the garden of the continent. We are pleased to welcome the Colonel home again.

Arthur Answorth and Alfred Bacon of Phoenix, M. J. Cunningham of Bisbee and Dr. W. B. Purcell of Tucson have been appointed by George Purdy Bullard, superintendent of the auto races at the fair, to act as an advisory committee.

An international drilling contest will be the feature of the next pilgrimage of the Hassayampa club in Los Angeles in 1909.

Tempe was dry last Sunday for the first time in the history of the town.

An excursion will be run from Phoenix to Tucson on Labor day. The latter city is now preparing a big celebration for that day.

A big row is expected in Mesa when the city council attempts to move the town's electric plant from its old stand on Center street to another portion of the city.

Phoenix people who have been precepting in the Winkelman district, claim to have discovered some excellent coal lands.

ESCAPED LYNCHING

Negro Kills Douglas Citizen--May Precipitate Race Fight

Last night officers Harry Shropshire, Bob Holburn and Frank Clark came in an automobile steered by "Auto Bob" of Douglas.

They were eminently relieved, however, as they rode out of town, looking backward and facing a fierce mob who wanted the negro they had in their charge.

This negro, Frank Butler, had about five o'clock, blown the head off of a white man named E. K. Phillips, a painter and paper hanger.

About three months ago, Butler had a street duel with another party of his own complexion on Sixth street, in which he splattered a negro by the name of Dycart with bird shot.

He killed Phillips with a double-barreled shotgun.

According to the statement of the officers, who brought the negro out, the act was totally unjustifiable, and the officers found it a most disagreeable job to face the indignation and the heated curses of their own neighbors in protecting their prisoner.

The city is desperately overheated in regard to the matter and it is feared that serious race friction may be the result.

Douglas has perhaps the largest colored population of any Arizona city and it is claimed that the element in the smelter city is correspondingly insolent, and the white element are becoming very sore about conditions, and this incident will not operate to relieve the situation.

It is hoped, now that the officers almost risked their lives to protect the prisoner, that the courts, witnesses and jury will do their whole duty in the premises and demonstrate to the people of Douglas, that the law will be vindicated, regardless of all the legal chicanery that may be brought to bear.

Anent the arrival of Butler, it is distinctly remembered that while living in Tombstone, Marshal Bravin had considerable friction with Butler, and had to "beat" him two or three times, and he was a source of perpetual trouble and danger.

The officers state that he is known as a desperate negro in nearly every camp in the territory and can hardly plead good reputation in the approaching trial.

C. B. Landers has established the Leadville, Courtland and Tombstone stage line, and beginning September 1st will make regular trips from Tombstone to the thriving mining camps of Leadville and Courtland. It is proposed to make three round trips weekly, one every Tuesday, Thursday and Saturday. The new stage line is quite a convenience for travelers who come via the county seat, and the natural point from which to reach these camps. The fare will be \$2.50 and the first trip will be made Tuesday next.

ARIZONA ELKS PLAN BIG PARADE

The Arizona Antlered Herd Will Travel In a Body

Letters have been received in this city and have also been sent to all the Elk lodges in the territory, recounting the action recently taken by the Bisbee lodge, looking toward a big attendance of the Arizona membership at the next convention in Los Angeles next summer.

The plans, as decided upon, look to the formation of all the Arizona Elks in a grand parade, with uniforms of similar style and kind. A special train is to be run out of Bisbee over the Southern Pacific into the city of Los Angeles and only Arizona Elks will be considered for passage over it. Headquarters will be established at the Hollenbeck Hotel.

Mauldin's Roses.

Roses in perpetual form are what you see in the display window of the Mauldin jewelry store in Tombstone. Something absolutely beyond comparison in the way of enduring beauty. They are manufactured by a secret process, by which any beautiful flower, fern or other delicate article may be transformed into beautiful metal work, without the slightest change in form. The ladies of taste are raving over them. No two are alike and Tombstone ladies should not fail to call on Mauldin and look over his exquisite variety of rose hat pins.

MET STERN REALITY

After Tiresome Tramp Gladly Return Home One Still Out

It now develops that three tender youths a few days since started to run away from home, parents, friends and Tombstone. Like most grown people they had not proceeded far before they discovered that they had left the sweetest spot on earth. Like the man who stands on the north pole and who cannot move without going south, the individual living in Tombstone, cannot move without going to a less desirable place; so this band of young runaways broke up somewhere over in the foothills of the Chiricahuas. Two of them found their way back as far as Leadville, where Dave Sheemaker picked them up, and the other will doubtless turn up sorer, hungrier and wiser than he ever was before. Fortunately the country is in such a shape that they can neither freeze, starve nor suffer for water.

Deputy Great Inebriate left for his home in Deming this morning from which point he will proceed to Chicago to the Grand Council of the U.S. Improved order of Red Men, where he will submit his report on the reservation of Arizona. He predicts that within a year the Tombstone Opata tribe will be the second in the territory, Bisbee coming first. Of course, he regretted to leave the glorious climate of Arizona in general and Tombstone in particular.

We Wonder.

If Tombstone, everything considered is not fully abreast of not "a leetle" ahead.

If our mines do not possess just about as much merit and extent as any in the county.

If our transportation facilities are not a thread better than in cities further away from the trans-continental lines.

If our fruits and vegetables are not finer and fresher than those which some of our big sisters find it necessary to import 900 miles.

If the cheek is not a bit clearer, the eye brighter and the carriage more springy in this "Edenized" zone among the clouds, where one needs a blanket every night, and never more than two.

If a case of typhoid, pneumonia, or any other disease does not have to be brought here, when some other places have eight funerals a day.

If we are not surrounded by a veritable cordon of magnificent mining districts, while other places have to squat on just one.

Guess Tombstone doesn't need any sympathy this morning, thank you.
